We started with
HTML5 **browser**
games, and now we
also develop **casual**
games that are
Steam-ready for PC.

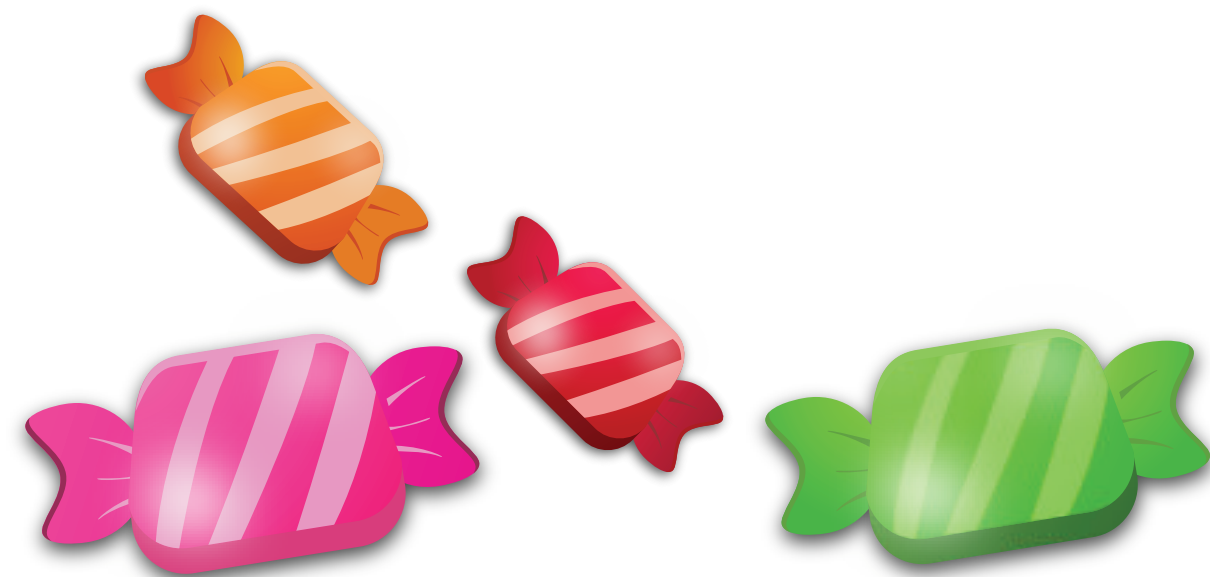

We have launched

We are looking for people or companies interested in **publishing** our games, **providing** funding, or needing **game development** solutions.

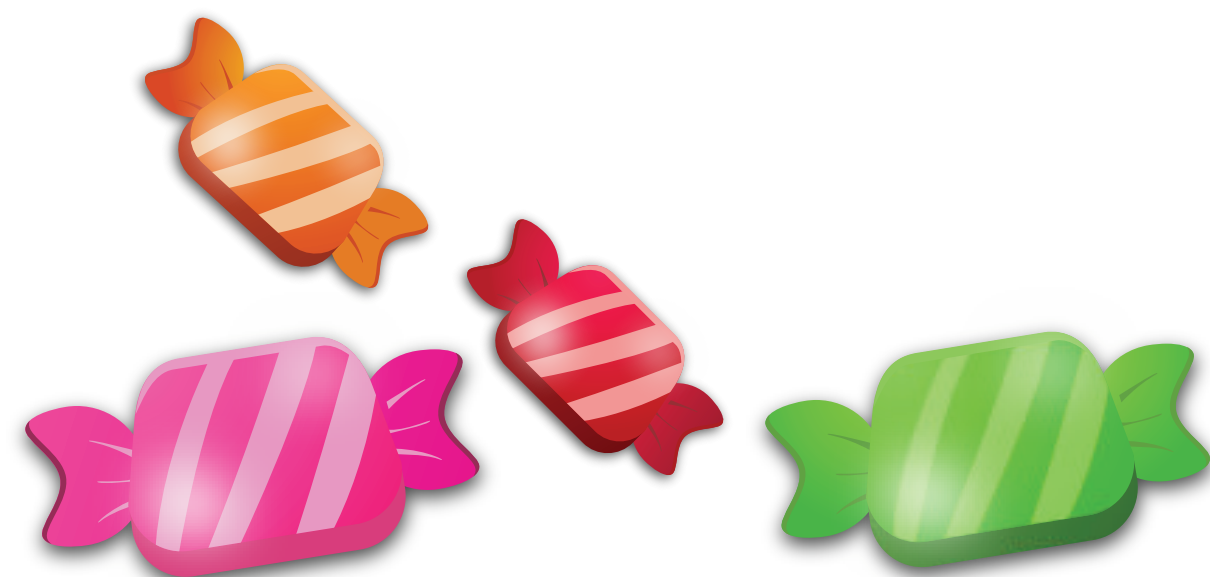

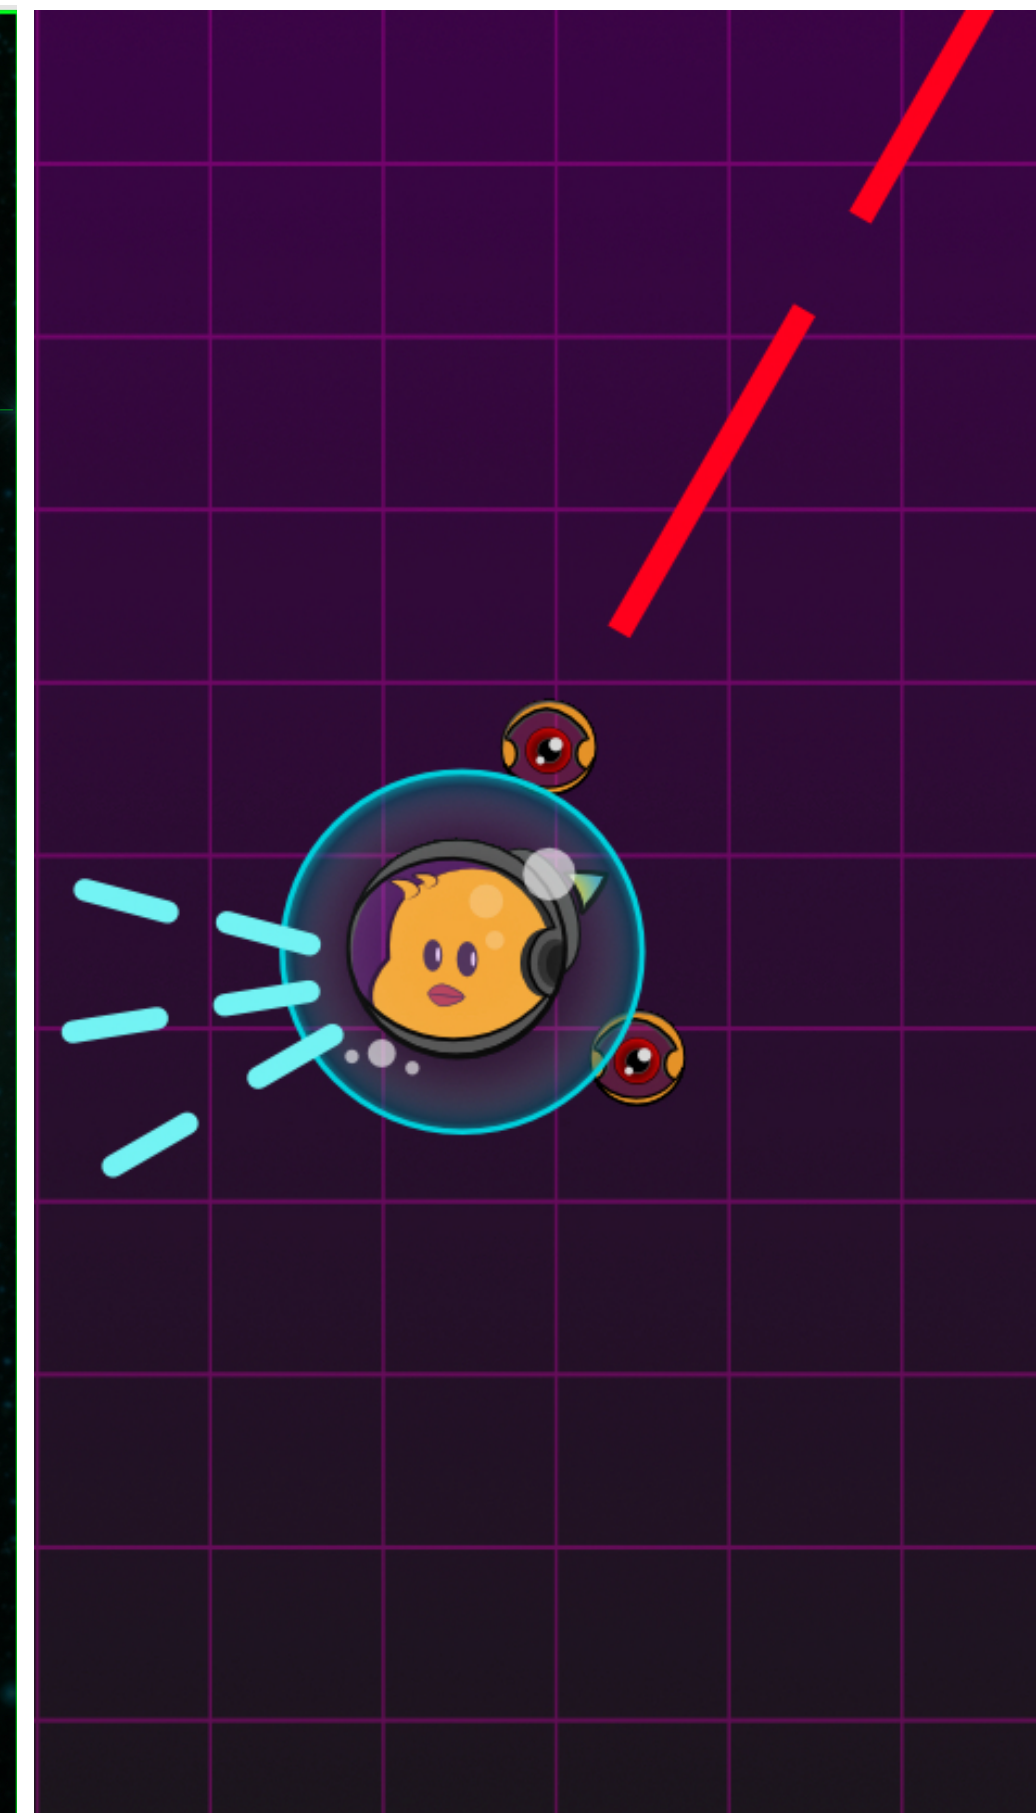

Our game, Super Bravo, features a **captivating story** and focuses on **classic platformer mechanics** for mobile and PC browsers.

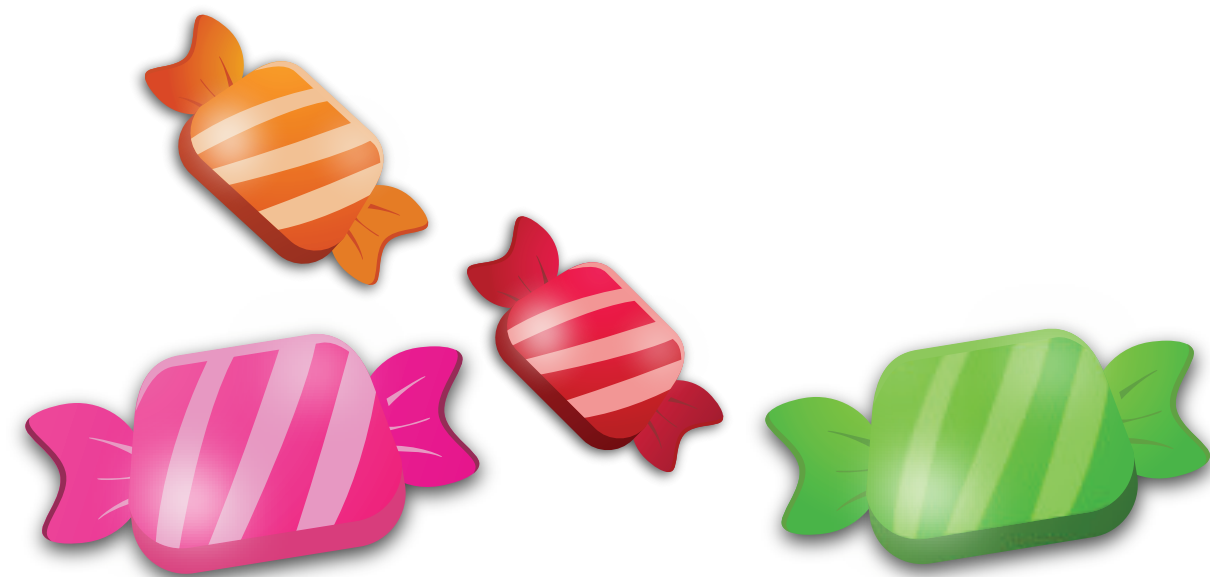

We are also seeking funding for other projects, including Andean Apocalypse, Galaxy Wars, and Chicken Chaos.

If you are looking for someone to **design and build** a game to meet a **communication need**, we would love to discuss it with you!
